How Chrome Enterprise boosts business

Enhanced security
Chrome Enterprise helps businesses stay secure with multi-layered security capabilities, AI-driven threat protection, and regular, controlled updates.
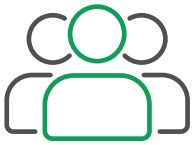

Governance, simplified
With access management and more than 200 user and device policies, businesses get everything they need to oversee activity by users near and far.

Reduced costs, year over year
Because Chrome Enterprise simplifies IT and strengthens security, businesses see cost savings in productivity, efficiency, technology,and security.

Increased employee productivity
Chrome Enterprise brings workers uninterrupted access to the data and apps they need on the latest and greatest Chrome devices, empowering them to work whenever they need to, from wherever they are.

How well do you know the typical cloud worker?
Get familiar with the characteristics of a changing workforce.[2]

94% of employees work on their commute

**9 in 10** workers value collaboration

4+ hours of work time is spent in a web browser

The Chrome Enterprise difference
Chrome Enterprise is transforming the way companies work.[3]

$100 per user in legacy technology savings

15% improvement in help desk efficiency
