Tech for Social Impact BD

What we'll cover:

1

What are the key challenges that mission driven organizations face in a remote world?

2

How does Microsoft 365 Business Premium enable security?

3

How does Microsoft 365 Business Premium help in reducing your IT cost and complexity?

Microsoft 365 for Business

Microsoft 365 Business Basic

Cloud services

Microsoft 365 Business Standard

Cloud services and desktop apps

Microsoft 365 Business Premium

Cloud services, desktop apps, and advanced security

Amidst a backdrop of increased COVID-19 related cyberattacks Let TSI Support your Security Expertise with AccountGuard

COVID-19 Exploited by Malicious Cyber Actors

“...groups and cybercriminals are targeting individuals, small and medium enterprises, and large organizations with COVID-19-related scams and phishing emails.”

Department of Homeland Security, April 8, 2020, CISA Alert (AA20-099A)

WHO reports fivefold increase in cyber attacks, urges vigilance

“Since the start of the COVID-19 pandemic, WHO has seen a dramatic increase in the number of cyber attacks directed at its staff, and email scams targeting the public at large.”

World, Health Organization, 23 April 2020 News release

Microsoft 365 Business Premium

Comprehensive productivity and security toolkit for small and medium businesses

Collaborate in
real time

Enable remote access
and protect identity

Protect against
cyberthreats and data loss

Easily secure and
manage devices

Collaborate in real time

Collaborate with coworkers, customers and partners

Real-time
teamwork

Online meetings
from anywhere

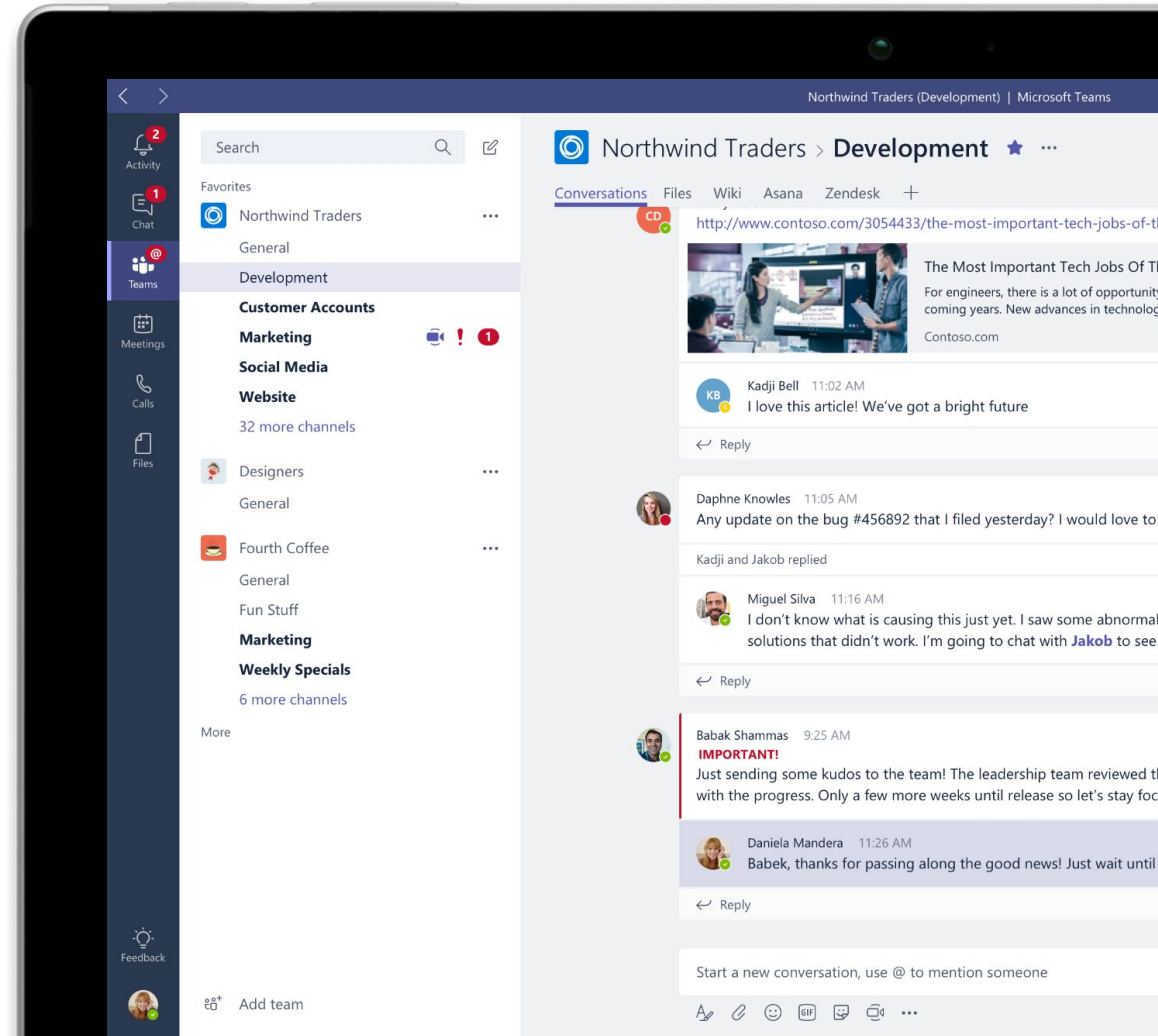

External
Collaboration

Real-time teamwork with Microsoft Teams

Work together in one solution for real-time communications and collaboration.

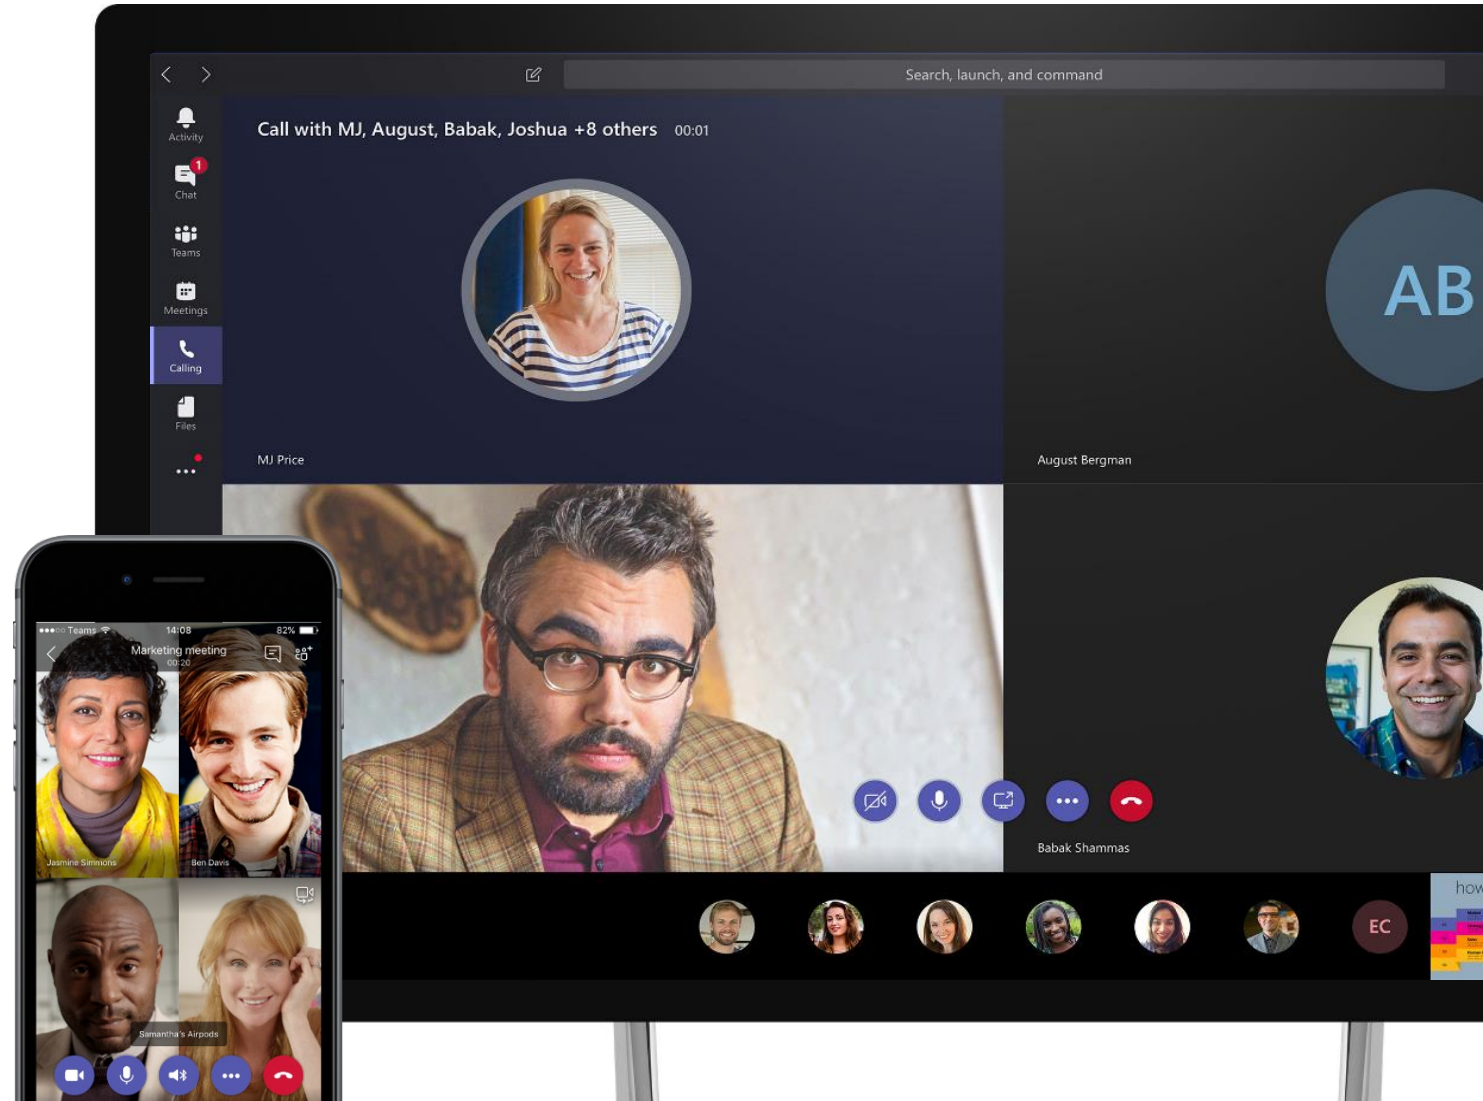

- Easily access your files, chats, and apps in one single workspace- across desktop, web and mobile
- Co-author files simultaneously with popular Microsoft 365 apps- like Word, Excel, and PowerPoint.
- Stay in sync and collaborate through 1:1 chat and conversations centered around workstreams

Online meetings from anywhere

Host audio, video and web meetings with anyone within or outside your organization

- Make meetings easier with meeting scheduling assistant, screen sharing ability and collaborative note taking as part of online meetings
- Record and transcribe meetings and calls for easy sharing and replay
- Get high-quality audio, video backed by enterprise-grade security and compliance.
- Intelligent and Inclusive capabilities such as Live captions, In-Message translation, Background blur, Meeting recording transcriptions

External collaboration

Engage with your customers and partners to chat, meet, call, and collaborate in one place

- Easy, secure external guest access enables you to collaborate with people outside your organization by granting them access to existing teams and channels
- Schedule a Teams meeting with anyone who has a valid business or consumer email address.
- Make & receive phone calls from anywhere with a cloud-based phone system built in Teams.

Enable secure remote access and protect identity

Remote work starts with securing identity and access

Protect against lost
and stolen passwords

Secure access to
work apps

Enable remote
desktop access

Protect against lost or stolen passwords with MFA

Verify user identities with strong authentication

We support a broad range of multi-factor authentication options

Including passwordless technology

Microsoft Authenticator

Windows Hello

FIDO2 security key

Biometrics

Push notification

Soft Tokens OTP

Hard Tokens OTP

SMS, voice

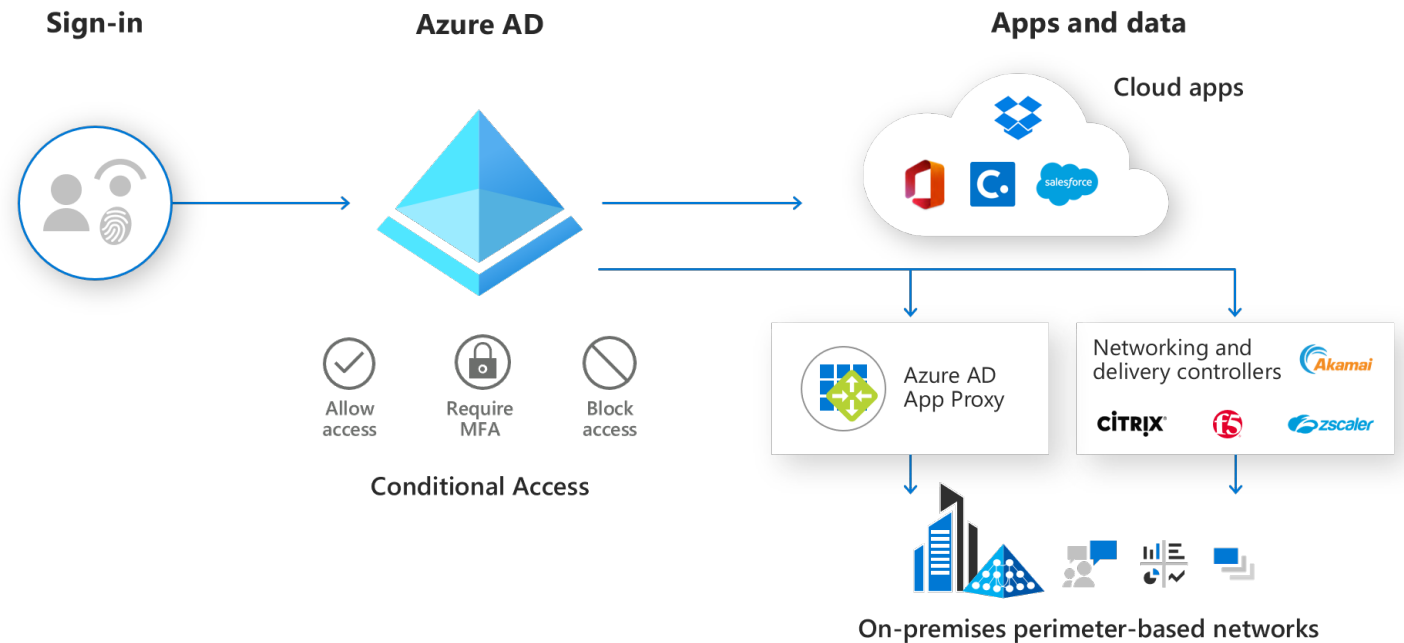

Multi-factor authentication prevents 99.9%¹ of identity attacks

¹ Source: <https://www.microsoft.com/security/blog/2019/08/20/one-simple-action-you-can-take-to-prevent-99-9-percent-of-account-attacks/> based on MSFT internal study

Secure access to work apps – with Azure Active Directory

Azure AD Premium P1 is now included with Microsoft 365 Business Premium

- Enable your employees to remotely access on-premises apps without opening broad access to your network with App Proxy¹
- Control “where, when and who” connects to Office apps with Conditional Access
- Automatically add/remove users to security groups and reduce IT overhead with Dynamic Groups

¹We are rolling out the full Azure AD Premium P1 capabilities to new Microsoft 365 Business Premium customers. Rollout to current Microsoft 365 Business Premium subscribers is scheduled to complete by July. For more details refer to the [blog announcement](#).

Enable remote desktop access with Azure Virtual Desktop

- Deliver the only multi-session Windows 10 experience that's highly scalable and stays up to date
- Enable optimizations for Office
- Migrate RDS desktops and apps and simplify licensing and reduce costs
- Deploy and scale in minutes. Manage with unified admin interface in Azure Portal
- Support any end-user device platform including Windows, Android, Mac, iOS, and HTML 5

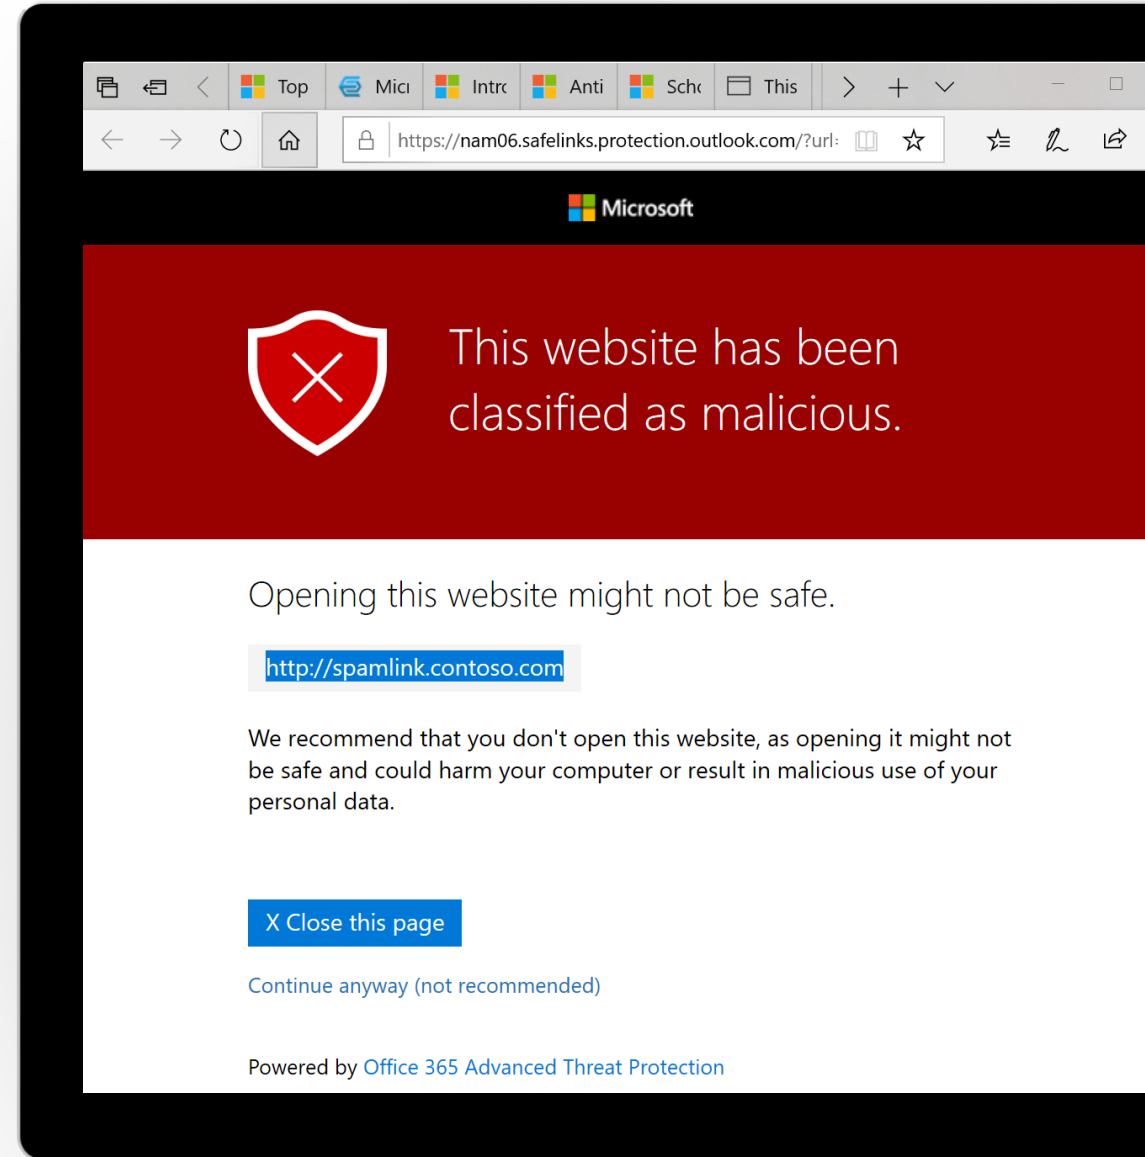

Protect against cyber threats and data loss

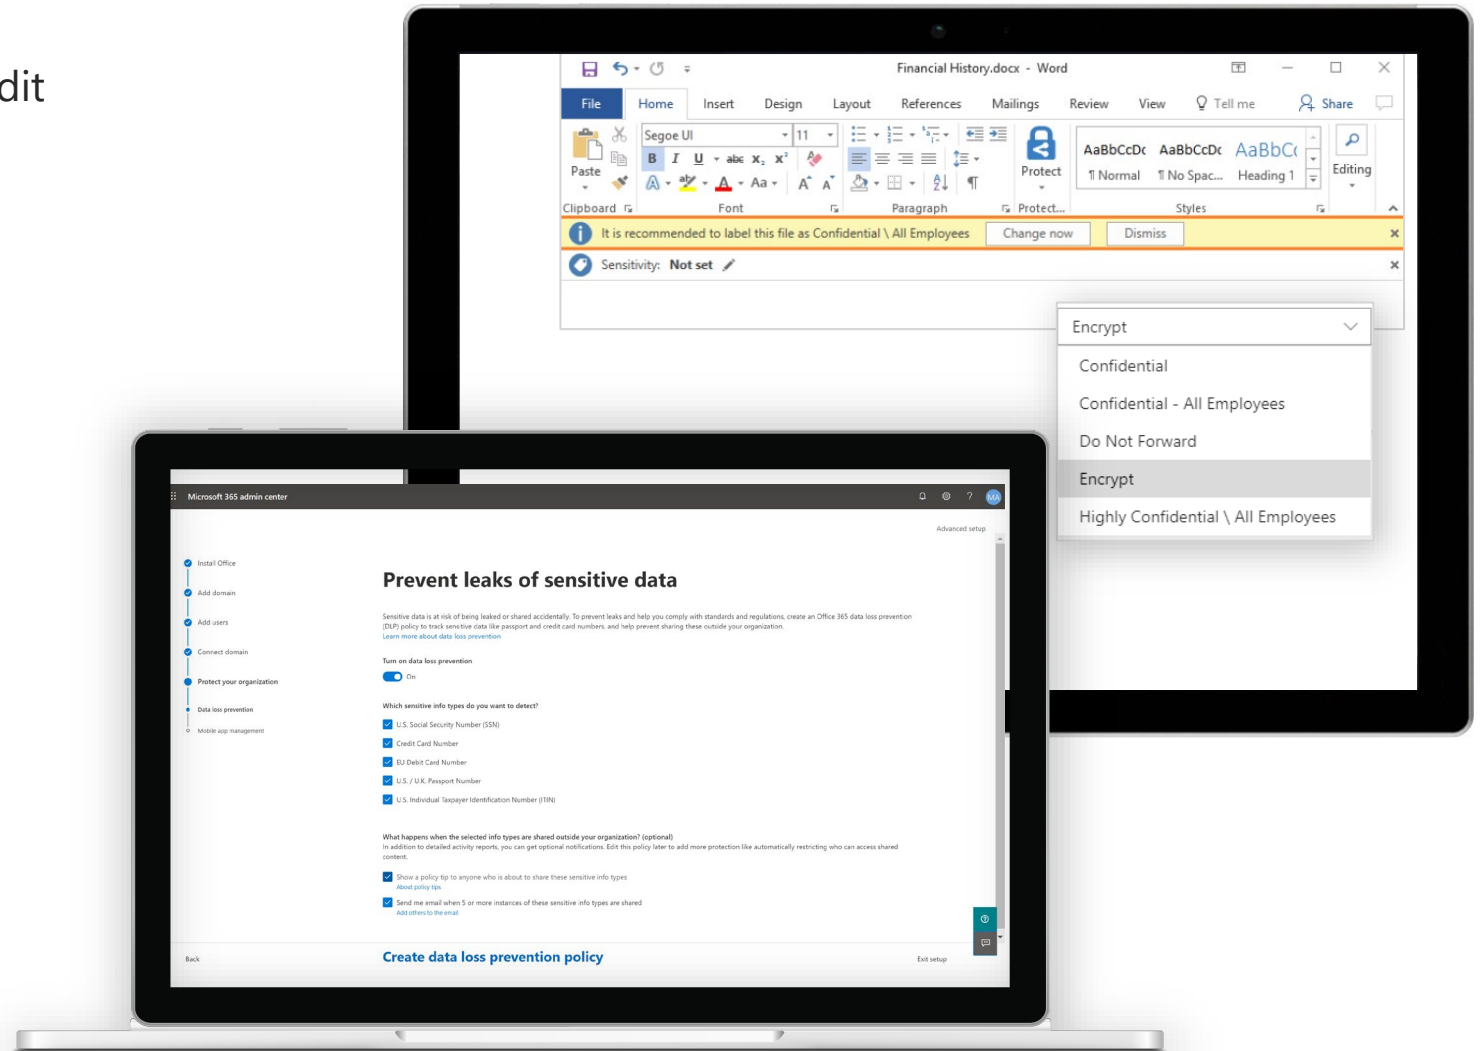

Protect users against cyberthreats with Advanced Threat Protection

- Protect against malicious links in email or Teams with real time scanning using ATP Safe Links
- Get AI-powered malware scanning for attachments in email and shared document links in Teams and OneDrive with ATP Safe Attachments
- Defend against impersonation and spoofing with ATP anti-phishing
- Get better protection on Windows devices against suspicious processes like ransomware with Microsoft Defender AV

Safeguard business data with DLP and Azure Information Protection

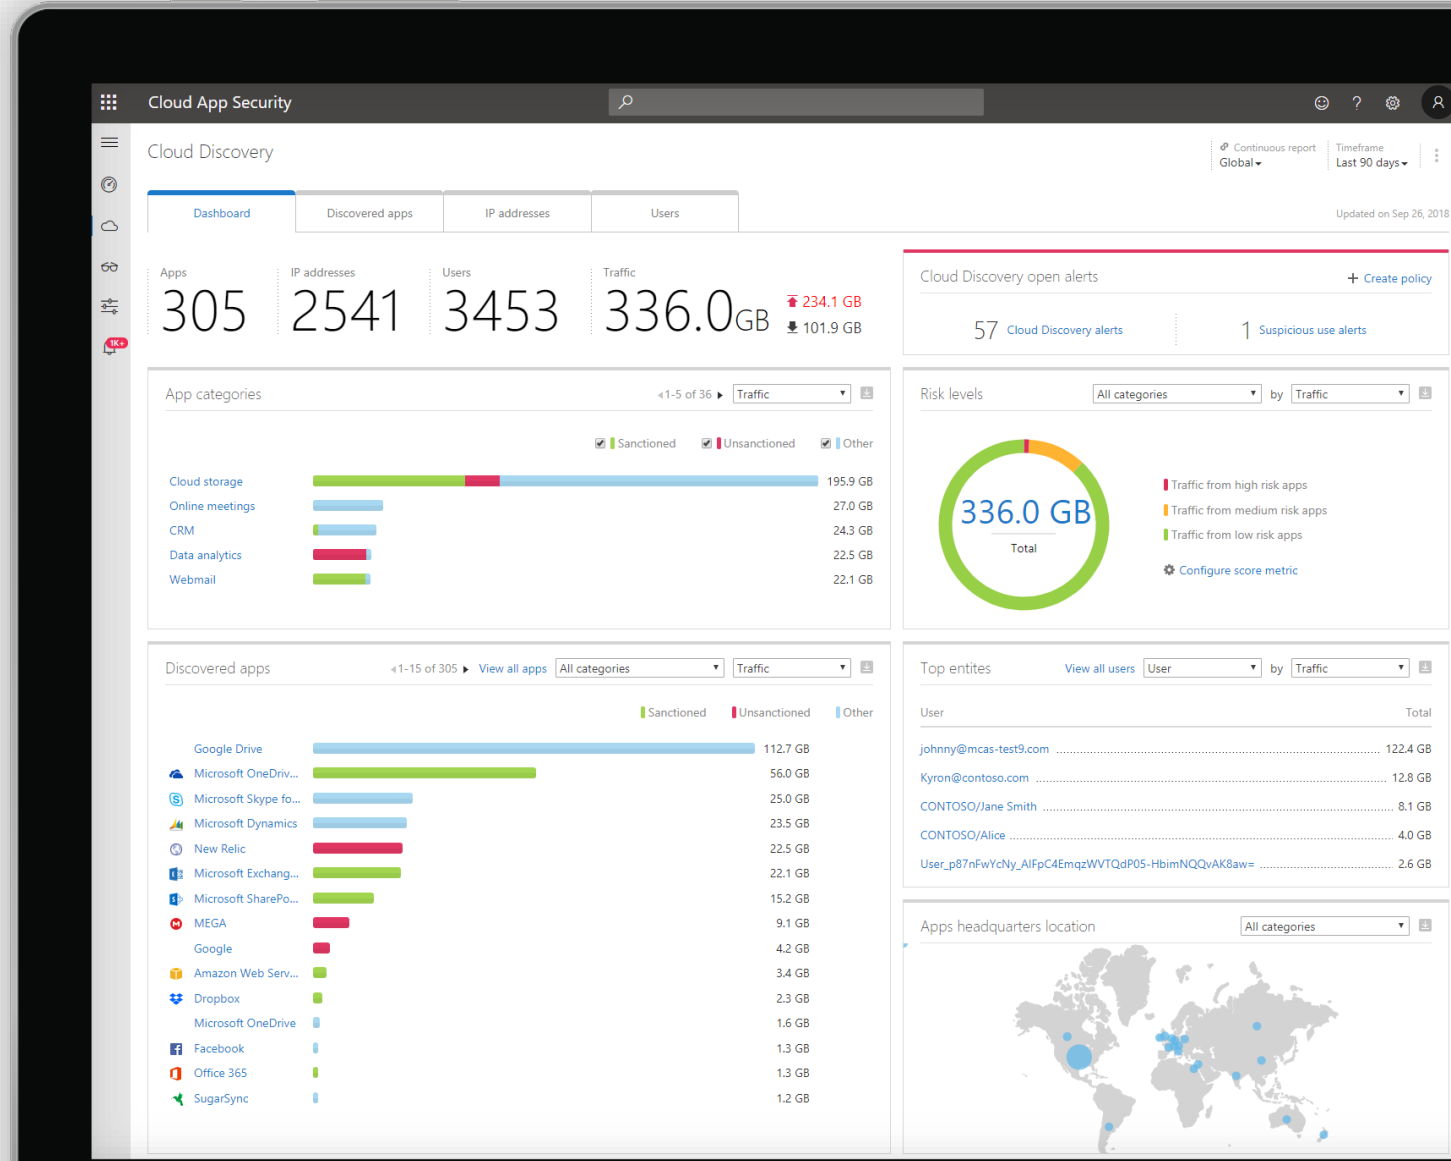

- Prevent sharing of sensitive information like credit card numbers using preconfigured DLP policy templates for HIPAA, PCI_DSS, SSN etc
- Control whether an email can be forwarded, printed, or viewed by non-employees.
- Control whether a document can be edited, printed, or viewed by non-employees. You can also revoke access.

New! Get visibility into cloud app use with Cloud App Discovery

- Discover cloud app usage to understand shadow IT risk
- Understand the security of your cloud apps with risk assessment for 16,000+ cloud apps
- Understand usage patterns and identify high risk users. Export data for additional analysis
- Prioritize applications to bring under IT control and integrate applications to enable single sign-on and user management

Note: We are rolling out the full Azure AD Premium P1 capabilities to new Microsoft 365 Business Premium customers. Rollout to current Microsoft 365 Business Premium subscribers is scheduled thereafter over the next few months. For more details refer to the [blog announcement](#).

Secure personal and company owned devices

Manage work data on mobile devices with Intune

Mobile Device Management (MDM)

Conditional Access:
Manage access to company owned devices.

Enroll devices for management

Provision settings, certs, profiles

Report & measure device compliance

Remove corporate data from devices remotely

Mobile Application Management (MAM)

Conditional Access:
Manage which apps can be used to access work email or files on personal devices

Publish mobile apps to users

Configure and update apps

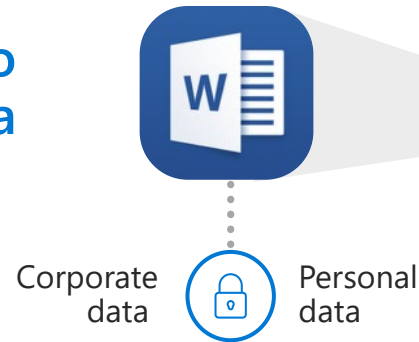

Enforce that work data cannot be saved on personal apps

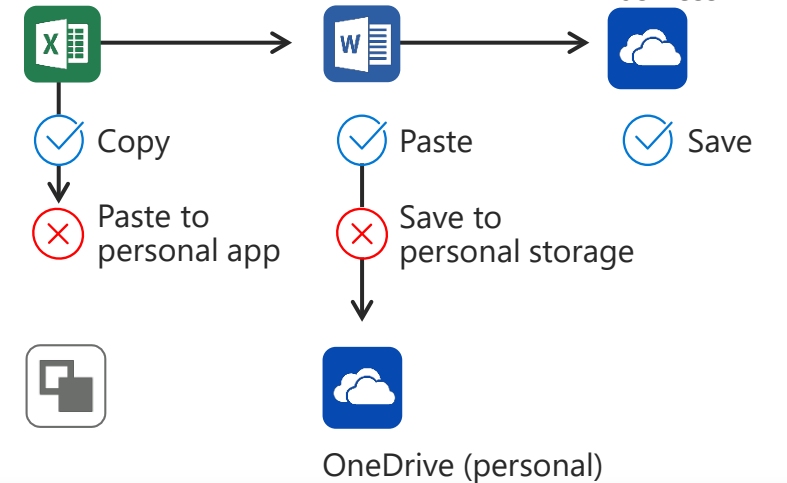

Secure & remove corporate data within mobile apps

Example: Managing work data on personal devices

MAM policy to secure work data

Email Attachment

Azure Information Protection (AIP) empowers you to specify access controls for work data

Separate company managed apps from personal apps, and set policies on how work data is accessed from managed apps

Intune APP helps ensure corporate data can't be copied and pasted to personal apps within the device

Secure Windows devices with Defender & Intune

- Require automatic updates on all of your Windows 10 devices
- Enforce Microsoft Defender protections against malware
- Require use of BitLocker encryption to prevent unauthorized access

The screenshot displays the Microsoft 365 admin center interface for setting Windows 10 device configuration. The top navigation bar shows the 'Setup' section for 'Microsoft 365 Business' with three progress steps: 'Step 1: Personalize sign-in' (completed), 'Step 2: Add users' (completed), and 'Step 3: Protect data & devices' (in progress). The main content area is titled 'Set Windows 10 device configuration' and includes a brief explanatory text. A list of settings is shown, with a red box highlighting the following five items:

- Secure Windows 10 devices On
- Help protect PCs from viruses and other threats using Windows Defender Antivirus On
- Help protect PCs from web-based threats in Microsoft Edge On
- Use rules that reduce the attack surface of devices On
- Protect folders from threats such as ransomware On
- Prevent network access to potentially malicious content on the Internet On

Other visible settings include:

- Help protect files and folders on PCs from unauthorized access with BitLocker On
- Allow users to download apps from Microsoft Store On
- Allow users to access Cortana On
- Allow users to receive Windows tips and advertisements from Microsoft On
- Keep Windows 10 devices up to date automatically On
- Turn off device screen when idle for: 5 minutes
- Restore default settings
- Install Office on Windows 10 devices Yes

An illustration of a laptop and a monitor with gears is located on the right side of the screen.

Why choose Microsoft 365 Business Premium?

Microsoft 365 Business Premium Benefits

Enable your business to run from anywhere, with peace of mind

Comprehensive and easy to use

- One solution for productivity and security
- Cloud platform simplifies deployment
- Gets you up and running quickly

Reduces costs

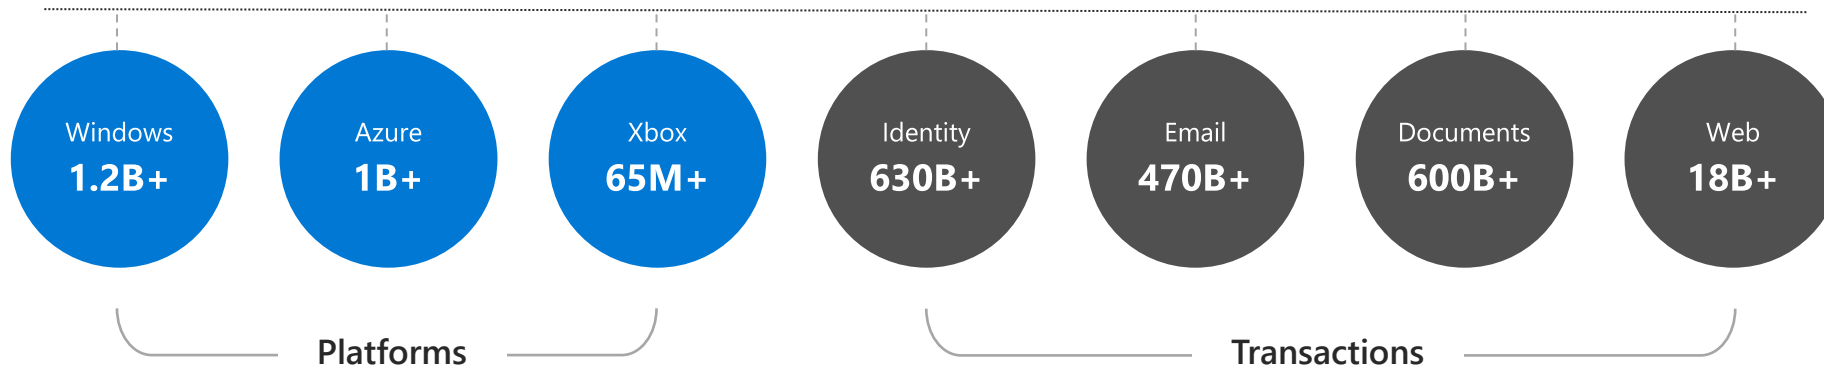

- Eliminates costs of multiple point solutions
- Reduces helpdesk costs
- Eases licensing complexity

Enterprise grade technology

- Integrated security; trusted by enterprises
- AI powered threat intelligence
- Top rated security vendor

Microsoft's unique vantage point on security

300B

User activities profiled and analyzed in 2019

2.3B

Endpoint vulnerabilities discovered daily

Microsoft Defender consistently rated top AV

1

AV-TEST: Protection score of 6.0/6.0 in the latest test

2

AV-Comparatives: Protection rating of 99.9% in the latest test

3

SE Labs: AAA award in the latest test

4

MITRE: Industry-leading optics and detection capabilities

Windows Defender Achieves 'Best Antivirus' Status

BY MATTHEW HUMPHRIES 6 AUG 2019, 12:30 P.M.

AV-TEST awarded Microsoft's security solution its top score and 'Top Product' award, which only 3 other (premium) antivirus products achieved.

Protection score in AV-TEST

Achieved perfect protection score in past 7 cycles

Real-world protection in AV-Comparatives

Consistently improved score in past 3 cycles

Award from SE Labs in past 3 cycles

Achieved 99% total accuracy rating in latest cycle

Thank you!
