

The SYNNEX Windows Virtual Desktop Technical Workshop

Companies around the world are reinventing their IT infrastructures to accommodate the shift to remote work. Now more than ever, it's essential for remote employees to have secure access to their Windows 10 desktops on any device, anywhere.

Windows Virtual Desktop provides easy remote access to the Windows 10 desktop and applications with **no additional license costs**.

Looking for more information on the Windows Virtual Desktop solution? **Join us** for an individualized SYNNEX WVD Technical Workshop! During this two day session, a member of our expert Managed Services team will take you through an interactive, workshop-style training on WVD.

Here's what you can expect:

One-on-one interaction with SYNNEX Microsoft experts

Technical training and hands-on experience

Insight into WVD terminology

WVD deployment experience and best practices

And more!

Explore the possibilities of virtualization!
