

Buy WatchGuard security hardware the same way your customers buy from you!

WatchGuard FlexPay offers flexible options including fixed term pre-pay, fixed-term pay-as-you-go and zero commitment pay-as-you-go to best meet your business needs. **WatchGuard Subscriptions** empowers you to offer your customers monthly payment plans without requiring you to purchase the hardware upfront – saving you time and money!

With **WatchGuard Subscriptions**, available through Synnex STELLR, you can buy security hardware and services the same way you sell them to your customers:

- Automated billing and renewal
- Hardware included, no upfront payment
- No commitment, pay as you go monthly

Contact your Synnex sales representative for more details today!

One Platform, Total Security

Our unique approach to network security focuses on bringing best-in-class, enterprise-grade security to any organization, regardless of size or technical expertise. Ideal for SMBs and distributed enterprise organizations, our award-winning Unified Threat Management (UTM) appliances are designed from the ground up to focus on ease of deployment, use, and ongoing management, in addition to providing the strongest security possible.
